- ✓ Choice of galvanized painted or polyester powder coated to any BS or RAL colour
- ✓ Supply only or supply and install

TSS hoop barriers offer an outstanding deterrent against unauthorised access or property damage. The barriers can be strategically positioned to provide a demarcation barrier or to protect shop fronts, forecourts or car parking areas etc. A perfect way to protect against the threat of vehicle access or egress and potential ram raiding. Hoop barriers can be static or removable, and are easily removed to enable access. Locks can be keyed alike if more than one removable barrier is fitted.
