- ✓ 8mm wall thickness, galvanized to BS EN ISO 1461 (1999)
- ✓ Concreted into the ground min. 960mm with a finished height above ground level of 670mm
- ✓ Secured by high tensile push pin case hardened stainless steel anti-drill lock with sliding protection cover
- ✓ Galvanized finish as standard with the choice of polyester powder coating to any BS or RAL colour
- ✓ Steel flap covers hole of retracted post to prevent trip hazard

TSS telescopic anti-ram raid posts offer an outstanding deterrent against unauthorised access or vehicle damage. The posts can be strategically positioned to protect loading bay doors, shop fronts and forecourts against the threat of ram raiders, saving you potentially expensive repairs and damages and are often a mandatory requirement by Insurance companies. Easily retracted to enable access to premises. Locks can be keyed alike if more than one post is fitted.
