

SECURITY BAR GRILLES

Product Specification Sheet

- ✓ 40mm x 40mm steel angle frame with 20mm solid steel bars at 100mm spacing
- ✓ Mild steel horizontal cross braces at 600mm intervals
- ✓ All joints fully welded
- ✓ Black primed finish as standard with option for galvanized or polyester powder coated to any BS or RAL Colour
- ✓ Fabricated to meet insurance company legislation
- ✓ Security fixings used if fitted externally

Bar Grilles give a more permanent security solution for those areas where highly visible physical security is required. They are extremely robust and cost effective and can be manufactured to fit any size of window or opening. Intruders will have to be extremely determined to get past these barriers. They are supplied black primed finish as standard and can be powder coated to a colour of your choice. And most importantly, they are manufactured and installed to comply with insurance company recommendations.
