

FIRE SHUTTERS

Product Specification Sheet

TSS can design and install a fire rated roller shutter for any application, to meet all your requirements and to comply with current legislations. The roller shutters are tested for up to 4 hours fire resistance to comply with BS476 part 22, 1987 clause 8. They can be activated via a signal from your fire alarm system to close in a controlled manner upon activation.

- ✓ *Ideal for serving hatches, fire escapes, public buildings, shopping malls etc.*
- ✓ *Choice of operation*
- ✓ *Option for polyester powder coated to any BS or RAL colours*
- ✓ *Can be linked to existing fire alarm system, fusible link or stand alone detectors*
- ✓ *Option for emergency battery back-up system*
