

# TX-2 Folding Window Grilles

## Product Specification Sheet

TX-2 window grille is an affordable, highly secure expanding gate, which provides a strong visual deterrent and protective barrier. It offers optimum visibility and ventilation, and when not in use retracts back to a fraction of its overall width. Therefore, this grille is an ideal solution for shop windows, patio doors, retail and domestic applications. They are exceptionally low maintenance with a zinc plated anti-rust finish and come in a wide choice of colour finishes to blend in with any colour scheme.

The grilles have been independently attack tested by a UKAS body (LPCB) to industry standard Security rating 1, they are insurance approved with Police preferred recognition, therefore having the potential to reduce insurance premiums.

Assessed to ISO 9001:2000
