- ✓ Plain galvanised steel to prevent rusting
- ✓ Option for polyester powder coating to any BS or RAL colour
- ✓ Choice of manual, spring assisted or motorised with operation by security key switch or remote control
- ✓ Can be grouped together for multi shutter applications
- ✓ 1mm galvanised steel canopy
- ✓ Fabricated to meet insurance company recommendations and local authority planning specifications
- ✓ All materials and workmanship fully guaranteed for 12 months

TSS roller shutters are manufactured to insurance company recommendations and provide a cost effective and ideal way to secure your premises. They are manufactured in-house to the highest standards and are installed by our own skilled team of fitters. Intruders will have to be extremely determined to get past these barriers.
